

RESPIRATORY PROTECTION

www.kcprofessional.com/za

From Kimberly-Clark's long known strength in combining cellulose and man-made fibres, the Kimberly-Clark Professional division some 10 years ago entered the disposable coverall market with KleenGuard® Coveralls. Other PPE items like gloves, eyewear, respirators and hearing protection were added over the past 5 years, and in 2009 this was supplemented by the purchase of Jackson Safety in Missouri, USA, whose establishment goes back to the 1920's.

*Trademark of Kimberly-Clark Worldwide Inc
